

RISK ASSESSMENT : Katholikentag Evensong SA 280522 @18:00

This is a one-off event

Risks:

- Potentially high numbers of attendees – covid (everyone attending has given 'consent' to personal risk by being there) but fill and empty church slowly to allow some distancing + usual fire risks in a full building – give notice about exits and have big enough Welcome Team on hand.
- Covid – congregation will each be given own service orders and will be required to wear masks throughout
- the choir will be placed in sanctuary area and facing at 90deg (not singing directly AT congregation) and we will also 'cap' numbers of choir members if too many volunteer
- Toilet use – only if absolutely necessary there are 2 sets one of which is down a spiral staircase (usually clean enough but users take own responsibility as to use of 'public toilets')
- The building – will be aired beforehand and windows opened and connecting doors as well as external doors kept open for airing throughout

all transport/ travel related responsibilities are private and personal

there will be no refreshments on site

also worth noting this is a liturgy that requires minimum vocal participation (really only hymns)
